Teacher Directions for Accessing Youth View™ Results

Students in your school recently completed the Youth View™ survey. The Youth View™ survey is a validated survey of 6 social emotional factors that are all related to academic success. The factors measured on the Youth View™ fall into two domains:

CLIMATE

- Adult Relationships (feeling challenged, valued and supported by adults in the school)
- Peer Relationships (feeling connected, and looking forward to seeing friends in school)
- Sense of Safety (feeling safe and comfortable while in school)

MOTIVATION

- Academic Motivation (motivated and confident to learn new and challenging material)
- Future Self (having strong ideas about interests and personal expectations for the future)
- College-Going Identity (planning to earn a degree or certificate after high school)

The Youth View™ also asks students if they need help in any of the following areas:

- English, Math, Science, Social Studies
- Other content area courses
- Time management or study skills
- Planning for college or the future

Lastly, the survey asks students about their plans after high school using these options:

- Enroll in college
- Enlist in the military
- Work full time
- Unsure

This guide will help you access results of the Youth View™ survey for students enrolled in your classes this school year.
